

Statement of Understanding

1. I agree to use only recommended products on my eyelash extensions.
2. I understand that I should not get my eyelash extensions wet within the first 24 hours after application.
3. I understand that there are many variables, including technician expertise, hair growth cycle, use of cosmetics and skin care products, and the overall care given, that will influence how long my eyelash extensions remain in place.
4. I acknowledge that I **SHOULD NOT** rub my eyes or **PULL** on my lashes after eyelash extensions have been applied.
5. I understand that if a certified extensionist does not apply eyelash extensions properly, there is risk of eye damage and harm to my vision.
6. I understand that, as with all cosmetic products, there is a potential possibility of allergic reaction.
7. I have been advised that using mascara on a regular basis will shorten the length of time my extensions remain in place. I have also been advised not to use waterproof mascara on my eyelash extensions.
8. I understand that touch-up appointments may be necessary as soon as two weeks after the application, and that there may be additional fees for this procedure.
9. I understand that there is an additional fee to remove a full set of eyelash extensions.
10. I have read and discussed the above information with my Certified Eyelash Extensionist.
